# INGREDIENTS FOR NATURAL COSMETICS

At IOI Oleo GmbH we are committed to sustainability and clearly focused on the responsible use of natural resources in our daily business.

We understood early on that health, environmental awareness and traceability play just as important a role for consumers as quality and efficacy. Most of our product range is certified according to the COSMOS/ECOCERT label.

The COSMOS standard has been developed at the European and international level by BDIH (Germany), COS MEBIO & ECOCERT (France), ICEA (Italy) and SOIL ASSOCIATION (UK), which are the founders of the COSMOS standard in order to define common requirements and definitions for organic and/or natural cosmetics.

IOI Oleo GmbH is RSPO Member (IOI Corporation Berhad: 2-0002-04-000-00, since 17 May 2004) and Supporter of FONAP (Forum for Sustainable Palm Oil)
